## ENVIRONMENTAL POLICY

Continual improvement of environmental performance is a key objective of the company. The Directors recognise the significance and value of pro-active environmental management and the need to eliminate or reduce adverse environmental impacts of our operations. The company will;

Comply with environmental legislation, regulations and codes of practice, including client standard , example Network Rail.

Pursue a sympathetic and planned approach to the identification and control of operations that have the potential for environmental harm.

Develop and implement objectives and targets along with monitoring their success.

Identify and manage significant environmental aspects and impact of operational development projects, work activities, plant and equipment used and disposal of waste.

Ensure that our staff and contractors are aware of their role and responsibilities for managing the environmental aspects of our operations.

Provide suitable resources to ensure the development and maintenance of the environmental management system on a corporate and local level.

Respond sensitively and speedily to external and internal environmental feedback and the needs and concerns of communities and interested parties.

Communicate this environmental policy to all employees, contractors and other people representing the Company.

The Managing Director is responsible for implementing this policy assisted by authorised staff. This policy will be reviewed on an annual basis.
